TECHNICAL DATA

Technical data		Customisations	
Dimensions (H x W x D)	1205 x 615 x 790 mm	Options Stop / start function Filter signal condition VOC Exhaust box / exhaust spigot	
Unrestricted airflow*	875m ³ /hr (+/- 10%)		
Settable range**	300-780m³/hr		
Max pressure	60mBar (+/- 3%)	Paint finish Powder coated mild steel (RAL7016)	
Electrical data	Voltage: 230V Frequency: 50/60Hz Full load current: 12.5 amps		
Interface signal connection	Not included as standard (see options for more information)	Power cables	
Max noise level	< 85dBA	Туре В Туре Е	
Weight (standard extractor with filters)	147kg (+/- 5%)	Type G	
Approvals	UKCA, CE and UL***		

* Unrestricted airflow = The airflow values provided with clean filters, no hose kit, at 230V and measured by using wind vane. The numbers may vary depending on voltage and test procedure used.

**** Settable range** = BOFA recommends utilizing the lowest flow rate that achieves the correct capture velocity for your application in order to maximise filter life.

*** UL = Tested to UL standards, but testing may be provided by alternate nationally recognized test laboratories. Certain product configurations may affect the UL certification. Please speak to your sales representative.

Airflow through filters

FILTER SPECIFICATIONS

DeepPleat DUO pre-filter specifications		
Media surface area	30m ² approx. (129.12ft ²)	
Filter efficiency	F8 - 50% @ 0.3 microns	
Combined filter specifications		
HEPA filter efficiency	99.995% @ 0.3 microns	
Activated carbon volume	53.67ltrs	

Replacement filters				
Model	DeepPleat DUO pre-filter	Combined filter

Where applicable, the carbon used in BOFA units is capable of removing a wide range of VOCs, however it is the responsibility of the user to ensure the carbon is suitable for their application. For specific applications, please contact us for details.

Important notice: Many factors beyond the control of BOFA can affect the use and performance of BOFA products in a particular application, including the conditions under which the product is used. Since these factors are uniquely within the user's knowledge and control, it is essential the user evaluate the products to determine whether the product is fit for the particular purpose and suitable for the user's application. All products, product specifications, availability and data are subject to change without notice, and may vary by region or country.
